Yes he is on the list. We have a CT form waiting to be routed.

> I've been asked about site schedule and this is what I know at the moment. We're loading the remaining soil waste trucks (3-4 more trucks) today and should be finished with excavation, transportation and disposal today. We have begun to decontaminate and demobilize equipment once it is no longer needed for site activity. Restoration of the site continues with final sod placement of a few areas and backfill/rock of the FJ Doyle property. Demobilization of equipment and personnel is scheduled through Friday and Saturday. The site trailer will be demobilized on Friday. I'm not sure yet of the need for Saturday work/EPA oversight. I'll keep everyone posted as things progress.

>

> A few items remain after ERRS demobilizes: site fence installation, sewer line repair/installation, and road repair. Procurement continues for these items and schedule is TBD. I will keep everyone informed on these items as well.
